DOCU DRAMA — PROJECT

# FROM THE SANDS TO THE STARS

*Zayed Bin Sultan*

---

The story of a man who began with a dream sketched on the sands of his homeland — where there was no means of survival but patience and hard work.

He ended up building a nation that is now among the most important and renowned in the world. A film that recounts the details of his journey in construction and development.

BIOGRAPHICAL FILM

# ALMASRI

---

A biographical film that traces the journey of a defining figure through the lens of the desert and its timeless witness.

The story unfolds across generations — from the discovery of water and the rise of civilizations, through wars and the discovery of oil, to the nation's formation and its remarkable path toward progress and space exploration.

A tribute to memory, identity, and enduring legacy.
